- Easy to manage, no IT skills required
- Low cost, no investment required
- Links your community

Simple to raise funds

Just advertise for listings, promote it

Watch it GROW and provide income

jmspiderwebsites@gmail.com

HOW IT WORKS

You advertise

You advertise amongst your community (using a flyer template provided by us) for listings, charging a set rate (our suggestions below).

You take the payment, we do the work

Listing details are registered by the businesses via your new website, directly to us and we develop your website and upload the information.

Where the money goes

We invoice you for an administration fee of \$40 for each of the first 5 listings with the remaining fees going to your **fund raising efforts**. After this the administration fee reduces to \$30 per listing. We also charge \$20 for any editing required on each listings. This fee structure repeats itself on an annual basis. **No listings - no cost! No set up fees - no hosting fees**

Based on our suggested rates, with just 20 annual listings, you could nett \$1,350!

Your Website

You can make some initial changes to the design and wording for no additional cost. We can also upload your ongoing fundraising activity information for a fee based on an hourly rate. You promote the directory internally to make it work for those with listings. For a one-off fee of \$500, you can even choose to take over the website and administration!

Suggested Cost Structure

	Per Year
Basic Listing	\$70
Premium Listing - includes link to website	\$100
